NEMA 12 (IP52) - Cabinet Panel Coolers (oil-tight, dust-tight) are used in industrial environments where no liquids can come in contact with the unit. Constructed of Stainless Steel (Type 303) to withstand harsh corrosive environments.

NEMA 4/4X (IP56) - Designed for Electronic Control Panels - Splash resistant, oil-tight, and dust-tight for use in wash down environments as well as outdoor use. When the Cabinet Panel Cooler is not operating a low pressure relief valve closes and seals to maintain the integrity of your NEMA 4 cabinet enclosure. Constructed of Stainless Steel (Type 303) for long life in wet environments.
